Cap Tamarin - Mauritius

A UNIQUE LOCATION

From the mythical bay of Tamarin to the shores of Le Morne mountain, classified as a UNESCO World Heritage Site, the West Coast brings together some of the island's most beautiful landscapes.

Known to be the ideal playground for sports enthusiasts and nature lovers, a large number of nautical activities (big game fishing, kitesurfing, surfing, boating, diving...) and land activities (golf, hiking, trails, biking ...) are located nearby and seduce Mauritians as foreigners.

If the Tamarin region is well known for its privileged climate and its sweetness of life... It lacked a village heart, whose life, activities and dynamism irrigate the whole region. On its 44 hectares, by the river, a few steps from the beach, the Smart & Happy Village of Cap Tamarin is on the way to becoming this essential magnetic pole on this coast.

CapTAMARIN

Smart & Happy Village

LIVE #CAPTAMARIN

Ideally located at the foot of La Tourelle Mountain and surrounded by the mythical Tamarin Bay, Cap Tamarin Smart & Happy Village is an extension of the traditional village of Tamarin. Developed under the Smart City Scheme, it is a smart city project that encourages diversity and sustainable development to offer a harmonious quality of life. With the first residential homes well underway to be delivered in 2021, the place is bursting tremendous opportunities to take advantage of right now.

Cap Tamarin is a perfect fit for an area that over time has become a model of social diversity and multicultural richness. Living here is tantamount to aligning oneself with a specific lifestyle and art de vivre. Keeping with this philosophy, the project boasts a diversified and affordable real estate offering. From small-sized apartments to luxury villas through office spaces and commercial areas, the village proposes a range of property options that address your personal needs.

AN ECO-FRIENDLY VILLAGE

Protecting nature is evident in this eco-responsible village that will produce 2.5 MW of photovoltaic renewable energy at the completion of the project. In the same way, this green philosophy, true thread of the project, will highlight the preservation of the natural resources thanks to the treatment and the reuse of waste water; use of soft mobility with 3 km of pedestrian and cycle routes, and buildings designed to limit the use of air conditioning.

« WORK, LIVE, STUDY & PLAY », ALREADY A REALITY !

In recent years, La Place Cap Tamarin commercial centre, a luxury residence (Les Terrasses du Barachois), a sports facility (Riverland) and a primary school opened in the centre of the Village. New construction will soon add to the existing infrastructure, including a 3 hectare-park along the river, a clinic under the C-Care brand, a primary school, a secondary school, an international high school, a retail area (hypermarket U), office spaces and a new sports complex for Riverland...
